

FRINDEL OPTICS

High-precision 1U standard chassis for data center interconnection

Overview

The 1U chassis support multiple configurations include SATA hard drives, rackmount chassis and redundant power supply that fulfill server-grade IPC standard. The 1U chassis series with the cooling fans design to deliver non-stop operation. Discover our custom 1U server chassis engineered by Excelsior Hardware & Plastic Co. Made from premium SGCC steel and compatible with rackmount server chassis standards, this model offers durability, precision, and exceptional. Rack servers delivering high scalability and flexibility, optimized for demanding data center applications. All modules can be put into operation via the front side, are hot-swappable and exchangeable without.
