

# **High-precision customization process for fiber optic quick connectors for surveillance**

## Overview

---

Through our custom design process, we can address unique constraints related to space, environment, and optical performance. Maximum precision in mechanical production enables customized connectors and special designs. Factory direct, OEM available, flexible for your project needs | OEM/ODM | MOQ 500 pieces CFOFC makes fast fiber optic connectors that are easy to install and very reliable. With more than 35 years of expertise, CeramOptec specializes in developing and producing fiber optic systems, making us a trusted partner for leading OEMs worldwide. Our strength lies in guiding projects from technical development and specification through validation to serial production. The detailed classification and features are shown in the table below: According to the interface type, it can be further subdivided into.

## High-precision customization process for fiber optic quick connector

---

### The principle and characteristics of optical fiber quick connector/cold

The fiber optic quick connector/cold connector is a very innovative field-terminated connector, which contains factory-installed optical fiber, pre-polished ceramic ferrule and a
