

# **High-pressure heat-resistant galvanized cable trays**

## Overview

---

The full-shaped HDG trays are dipped into a large bath of hot, liquid zinc. It is this heavy shield that makes the metal resistant to rain and salt air for over 20. PFLITSCH has the perfect solution for requirements like these: our non-enclosed Wire-tray Trunking combines many different advantages and is convincing in every respect. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. It offers true freedom by allowing multiple configurations in a wide choice of finishes for optimal integration into any environment.
