

High-quality East African power distribution box sets

Overview

Our boxes feature modular designs with flexible input/output configurations, high-quality circuit protection, and weather-resistant construction. African Electrical Supplier's dedicated electrical division specialises in electrical services and supplies for underground mining, tunneling, civil construction, renewable energy and other industries internationally. This metal power distribution box is designed for power distribution in African markets. Constructed from durable metal, the enclosure provides secure housing for electrical components, ensuring safety and reliability.
