

How much does it cost to install a 96-core optical fiber cable

Overview

Fiber optic cable installation costs between \$1,500 and \$7,000 for your home, with prices varying by cable length and installation method. The installation type you choose and the layout of your property determine the total labor and materials needed for your project. According to the Fiber Broadband Association's 2025 report, median costs are \$8 per foot for aerial builds and \$18 per foot for underground. This comprehensive guide breaks down the factors influencing pricing, average expenses, and tips to get the best value in 2025.
