

# **How often should the main switch in the distribution box be replaced**

## Overview

---

Routine maintenance should be carried out annually at minimum; more frequent if exposed to harsh environments or critical operations, always refer to the local code or standards for detailed understanding of your system. A main breaker serves as the primary switch in your home's electrical panel (often called the breaker box or service panel). Installed equipment can vary greatly between residential, commercial and industrial facilities. Special or niche facilities may require more detailed or out-of-the-norm maintenance plans like: 2. Just like you need to replace and upgrade the wiring and light fixtures when they show signs of damage, you also need to upgrade your distribution board so that your property keeps getting an uninterrupted and safe supply of electricity to power it.
