

How to Choose Cables and Fiber Optic Cables

Overview

This fiber optic cable selection guide helps you decide whether now is the right time to buy fiber optic cable, based on three key factors: project phase (new vs. multimode, network speed and distance needs, cable jackets/fire ratings, connectors, cost and future-proofing for data and telecom networks. Fiber optic technology offers several key benefits including higher bandwidth for data. You have the choice between different structures: Breakout: This type of cable features individual strands of 2 mm, making it ideal for applications. This comprehensive guide will walk you through the essential factors to consider when selecting fiber optic cables, helping you make an informed decision that meets your specific needs.
