

How to change router settings for fiber optic access

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. Make sure to update the firmware, configure Wi-Fi security, and customize your network name for optimal performance. Enter the FRITZ!Box password on the bottom of the device and click "Log In". Select "DSL or fiber optic modem" from the drop-down list "Internet connection via". However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process.
