

How to cover the fiber optic cable in the router port

Overview

Remove the cable connected to the transceiver (see Disconnect a Fiber-Optic Cable from a Router). To connect your fiber optic cable to a router, ensure you have the following: Fiber optic modem (ONT): Most fiber connections require an Optical Network Terminal (ONT), provided by your ISP. Compatible router: Verify that your router supports fiber optic input (look for an SFP or WAN port labeled). Understand the Basics Before diving in, familiarize yourself with the components involved:.
