

How to set up fiber optic cable and TP-Link wireless router

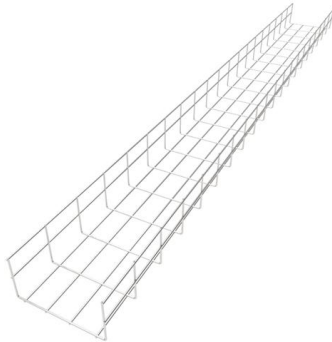

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. In this tutorial, we'll guide you step-by-step through simple and effective configuration of your TP Link fiber optic router. Yes, TP-Link routers can absolutely work with fibre optic internet, but there are a few important things you need to understand about how fibre connections are set up.
