

How to use Oamlink industrial switches

How to use Oamlink industrial switches

OAMLink Industrial switch - PANDA TOOLS

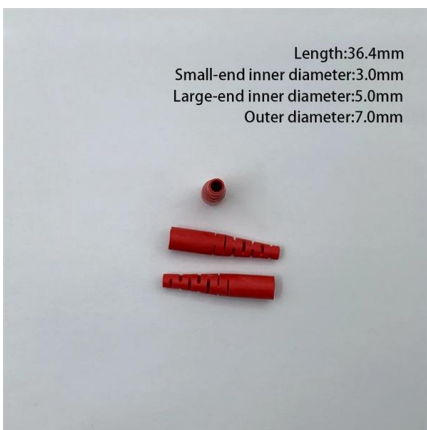

Gigabit 5 port 1 optical 4 electrical SFP interface
- Industrial-grade gigabit 8 ports Gigabit 5 port1
optical 4 electrical SFP interface-Industrial-grade
gigabit 8 ports Overall dimensions: -
48*104*143mm

How Ethernet OAM works

Link monitoring is used to detect and indicate link faults in various environments. Ethernet OAM implements link monitoring through the exchange of Event Notification OAMPDUs.
