

How to use the Huawei AR2200 optical module

Overview

Gently push an optical module into an optical interface until you hear a click.
How do I change the administrator password for my Huawei AR2200 router?

To change the administrator password, you can use the set authentication password command within the user interface configuration view (e. User Manuals, Guides and Specifications for your Huawei AR2200 Series Network Router.

How to use the Huawei AR2200 optical module

Connecting Optical Modules and Optical Fibers

After optical fibers are removed from the optical module, cover the optical module with the dust plug to protect it from dust. Before connecting optical fibers, attach temporary labels on both ends of each
