

How to weld fiber optic cable connectors and their prices

How to weld fiber optic cable connectors and their prices

Fiber Connectors

Fiber Optic Connectors are used to connect two runs of fiber optic cable and consist of an adapter assembly along with two plugs. The most popular versions include, push-on Square Connectors

What is the optical fiber welding process?

A special fiber optic splicer is used for this. When two cable ends are introduced into it, it creates an electric arc which, in turn, fuses the fronts of the optical fibers, joining them together and
