

Huijue All-Optical Access Layer Switch

Overview

The Huawei S5736 Switch series offers all-optical gigabit access, layered intelligence, and flexible uplink speeds—positioning it as an exceptional Campus Switch and Enterprise Switch that both meets today's needs and adapts to tomorrow's growth. All-optical Ethernet switches are a type of switch that provides optical uplink and downlink ports, making them an ideal choice for building an all-optical campus network. They can function as core, aggregation, and access devices on campus networks and connect to upstream and downstream devices. Based on Huawei's Versatile Routing Platform (VRP), CloudEngine S5736-S supports enhanced Layer 3 features, simplified Operations and Maintenance.
