

Image of laser diode mounting housing

Image of laser diode mounting housing

16x50mm 5.6mm Laser Diode Housing w 650nm Lens

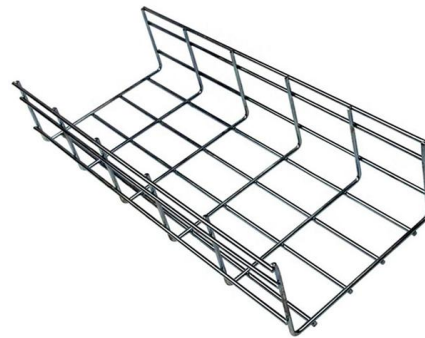

This is a house with coated focusable glass lens (three layers) and M9*0.5 frame for 5.6 mm laser diode. The lens is suitable for 650nm laser beam. The lens frame is

Reasonable structure
Stable performance

Chapter 1 Laser Diode Basics

Laser diodes are unique compared with other types of lasers. A little background knowledge of laser diodes will be helpful for the readers to understand the contents of this book. We will only briefly
