

Indoor distribution box with meter

Overview

Equipped with a multifunctional electricity meter, leakage circuit breaker, and a maximum rated current of 20A branch circuit breaker; SAFE AND RELIABLE: This power outlet box comes with 4 NEMA 5-20 IP44 waterproof sockets. 60A HIGH CURRENT POWER SUPPLY BOX: The input voltage of the power box is 110V, and Maximum tolerable load current 60A. Robust electrical meter boxes engineered for utility metering, sub-metering, and revenue-grade installations — available in stainless steel, mild steel, and fiberglass with NEMA 4X and IP66 ratings as standard options. With the meter distribution in a multiple box construction type in accordance with DIN EN 61439-2/-3, installers have found the right product for challenging industrial environments. A meter box is an electrical enclosure designed to house the electricity meter and related service connections. GE Vernova's Multilin™ Meter Enclosure is a pre-wired configured, economical solution for both retrofit expansions and small scale meter installations that allows the expansion of existing switchgear capability without expensive and time-consuming design.
