Features and prices of indoor thread optical cables

Indoor threaded optical cables, also known as indoor drop cables or indoor distribution cables, are fiber optic cables designed for use in indoor environments. They are used to connect

[Contact Us](#)

What are the typical cabling methods for indoor distribution optical

Due to the inclusion of aluminum in their composition, these cables are suitable for any application and provide insulation against ground electricity. Subsequently, splice closures and

Fibre Optic Cables/Patch Leads

Fibre cables offer fast, flexible connectivity - often over long distances, and come in a variety of flavours - Multimode and Singlemode, and differing termination connector types, so it's important to double
