

# **Information on the Construction of Optical Fiber Cables in Iraq**

## Overview

---

Now a leading Iraqi fiber optic provider has launched its own 21st century version - The Silk Route Transit Network. The Fiber Optic Cable Project is centered on establishing a specialized industrial facility spanning 4,200 square meters, dedicated to the manufacturing of high-quality fiber optic cables used in telecommunications and internet services. Iraq's National Investment Commission (NIC) has announced a new strategic vision aimed at delivering major projects to support Iraq's economy and sustainable development. Ooredoo Group and ITPC Partner to Land FIG Subsea Cable in Iraq, Advancing Regional and Global Connectivity This milestone marks the next phase in the disciplined rollout of the project, positioning Iraq as a critical transit point for global data traffic between Asia and Europe 16 March 2025 Doha.

## Information on the Construction of Optical Fiber Cables in Iraq

---

### Design Optical Fiber Networks over Electrical Power Transmission

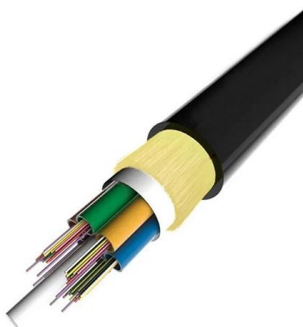

Abstract: To maximize the use of 132 KV power transmission line infrastructures in Iraq, we design optical fiber network over it based on present and future traffic demand. We lay out the optical
