

Inquire about pricing for 4 cores of hollow fiber optic cable

Overview

Looking at a typical 4 core fiber optic cable price list from OWIRE, prices start around \$0.80 per meter for ruggedized outdoor or armored versions designed for harsh environments. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Unlike standard fibers that rely on total internal reflection due to a higher refractive index in the core, HCFs utilize. We also provide Customized Service such as fiber number, fiber color and cable length, etc.
