

# **Inspection of optical fiber cable assemblies**

## Overview

---

This guide covers what you need to know about IPC-A-640: the class system, key acceptance criteria, inspection requirements, and how it relates to other IPC standards. HOLIGHT Fiber Optic applies standardized testing procedures across its passive fiber-optic components to support reliable. That's why IPC developed IPC-A-640, the acceptance standard specifically for optical fiber, optical cable, and hybrid wiring harness assemblies. This Standard may also apply to the Jet Propulsion Laboratory other contractors, grant recipients, or parties to agreements only to the extent specified or referenced in their contracts, grants, a ontain. 1) The other portion of a good physical contact between the connectors ferrules is the absence of any type of.
