

Installation location of the small busbar in the central power switch cabinet

Overview

Main busbars can be located at the top, in the centre or at the bottom of the panel depending on the selected design and they distribute the power to the various switchgear panels. In most assemblies you will find horizontal main bars, vertical risers, neutral and equipment-ground buses, and purpose-designed. Hot Busbars Hot busbars carries electrical power from the main breaker to the branch circuit breakers and.
