

# **Introduction to the Applications and Types of Cable Trays**

## Overview

---

Discover the top 7 types of cable trays including Ladder, Perforated, and Wire Mesh. A cable tray system is an essential part of modern electrical installations, designed to support, protect, and organize electrical cables efficiently. The Cable Tray ng standards, performance standards, test standards and application in this document have been tested extensively by competent professional engineers completely installed, without damage either to conductors or.
