

# Iranian Dual-Fiber Optic Module

## Iranian Dual-Fiber Optic Module

---

### A Fiber Optics Backbone for Iran

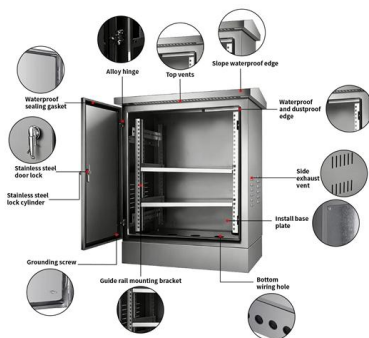

But to create a powerful infrastructure that can make doing remote engineering and commerce possible in Iran, I think big networking pipes are needed and that requires a powerful national networking

### 240902 QSFP28 100G SWDM4 optical module

The QSFP28 100G SWDM4 optical module multiplexes optical signals of 4 different wavelengths (850nm, 880nm, 910nm and 940nm) to a link for transmission, using two parallel fibers,

### 300m SFP+ Optical Module

This is a standard SFP+ optical module. It uses two multi-mode optical fibers and the speed rate can up to 10Gbps, transmission distance up to 300m. This product
