

Is it necessary to add a router to a fiber optic cable Why

Overview

These fiber optic modem router are faster than regular ones because they use light to send data through the fiber cables. To connect your fiber optic cable to a router, ensure you have the following: Fiber optic modem (ONT): Most fiber connections require an Optical Network Terminal (ONT), provided by your ISP. Compatible router: Verify that your router supports fiber optic input (look for an SFP or WAN port labeled).

Is it necessary to add a router to a fiber optic cable Why
