Arista Innovations: Harnessing Liquid Cooling and Optical Technology

Emphasizing the need for liquid-cooled switches in AI data centers, Bechtolsheim stated that this technology not only lowers power consumption but also decreases failure rates and

Instagram

In this video, Cisco showcases its liquid-cooled 51.2T data center switch, which utilizes direct-to-chip liquid cooling to manage 2000W of heat and reduce energy consumption by up to 28%. The switch
