

Jamaican Trough-Type Cable Tray Materials

Overview

Cable tray products are formed from the 6063 series alloys which by design are copper free alloys for marine applications. These alloys contain silicon and magnesium in appropriate proportions to form magnesium silicate, allowing them to be heat treated. Cable trays support insulated electrical cables in industrial and commercial settings. The Cable Tray ng standards, performance standards, test standards and application in this document have been tested extensively by competent professional engineers completely installed, without damage either to conductors or. brings the Cable Trays in Jamaica just for you! We, one of the well-known Cable Trays Manufacturers in Jamaica, offer top-notch trays that keep your electrical system organized and protected.
