

Kyrgyzstan Fiber Optic Hybrid Cable G 657A2

Overview

Indoor tight buffered optical fiber distribution cable with Low Smoke Zero Halogen outer jacket. "Leviton is dedicated to designing, developing and manufacturing sustainable high performance structured cabling and specialty cabling solutions. " The information contained in this document is valid and correct at the time of issue. installation temperature -20°C Storage and transport temperature range -40 °C~60 Applications Indoor & Outdoor Service life ≥ 15 years Reference standards YD/T1997,ITU 657,YD/T 1173,GB/T 7424. A2 is a 125 μm cladding, low-water-peak, low-loss, bend-insensitive single-mode optical fiber intended for transmission systems operating in the 1310 nm and 1550 nm wavelength regions. In practical product selection, its main value is not a generic "better fiber" claim, but a measurable.

Kyrgyzstan Fiber Optic Hybrid Cable G 657A2

G.657.A2 Bending Insensitive Single-mode Optical Fiber

The bending insensitive single-mode optical fiber G.657.A2, is available in 200 um & 242 um diameters. Since dedicated high-performance acrylic composites are used for coating protection, the fiber still
