

LC to SC fiber optic connector

Overview

The LC-SC Hybrid Fiber Optic Adapter is a special style of fibre optic adapter that supports the precision connection of different types of fibre optic connectors. It is specially designed to incorporate the Small Form Factor LC into SC configured environment. While the small size of fibre optic connectors does not mean they play a minor role, the type of connector you use affects the overall efficiency of light transmission across the fibre network. Both connectors are widely used in fiber optic systems, but they serve different needs.

LC to SC fiber optic connector

LC to SC Single Mode Fibre Optic Adapter, Simplex

Buy LC to SC fibre optic adapter from reliable fibre optics supplier - FS ,
