

Laser Diode Thailand

Overview

This market report covers trends, opportunities, and forecasts in the laser diode & direct diode laser market in Thailand to 2031 by type (laser diodes and direct diode lasers), and application (material processing, optical sensing, healthcare, optical pumping, display). Furukawa FITEL (Thailand) manufactures wide range of pump laser products with outstanding characteristics and reliability. The Thailand Laser Diode Market is a vital segment of the optoelectronics industry, involving semiconductor devices that emit coherent light when electrically biased in the forward direction. Laser diodes are widely used in numerous applications including telecommunications, consumer electronics. (Head office: 2-6-4 Otemachi, Chiyoda-ku, Tokyo; President: Hideya Moridaira) will work to increase manufacturing capacity of high output DFB laser diode chips for signal light sources by newly establishing a plant inside the Iwate Operations of Japan Semiconductor.
