

Length of photovoltaic cable trays in Serbia

Overview

The standard length is 3000 mm and there are various widths from 150 mm up to 600 mm with different sidewall heights to cater for the different cable diameters. OBO cable support systems combine the best possible protection with rapid mounting. Our product range comprises closed cable tray, wide span tray and mesh cable tray systems. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field. Only in this long way, we are able to develop all the necessary knowledge and experience to apply this into the market as a quality service with hard cable containment.
