

MPO-SC Multimode Fiber Optic Patch Cord 200g

Overview

Built with OM4 50/125µm multimode fiber, optimized for high-speed 40G/100G/200G connections to support 40GBASE-SR4/100GBASE-SR4, ensuring low latency and high bandwidth data transfer for business-critical data center and enterprise networks. Built with OM4 50/125µm multimode fiber, optimized for high-speed 40G/100G/200G connections to support 40GBASE-SR4/100GBASE-SR4, ensuring low latency and high bandwidth data transfer for business-critical data center and enterprise networks. MPO patch cables for 40G or 100G SR4 (multimode) or PSM4 (singlemode) enable a direct connection between transceivers. They can also be used with MPO trunk cables and MPO adapters to create longer links. MPO (Multi-Fiber Push-On) patch cords are multi-fiber connectors that bring together 8, 12, 16, 24, or even more fibers into a single compact interface. Whether you're cabling a new AI training cluster, upgrading a campus backbone, or just replacing aging patch cords in a 40G/100G/200G high-speed connectivity: Designed for 40GbE and 100GbE networks, this 12-core OM4 MPO to MPO fibre optic patch cable delivers reliable, ultra-fast connections. Built with OM4 50/125µm multimode fiber, optimized for high-speed 40G/100G/200G connections to support platforms, high-performance computing (HPC) and large-capacity fiber communication networks.
