

Madagascar 24-core optical cable model

Overview

Universal (Indoor/Outdoor) Dry tubes (4F/T), Dry core, optical fiber Multi Loose Tube cable with Glass Yarn strength member, Corrugated Steel Tape armor and Low Smoke Zero Halogen outer jacket (black), 24 fibers SM G. Fiber optic cable is a cable containing one or multiple optical fibers that are used to transmit the signal. The optical fiber elements are typically individually coated with layers and contained in a protective tube suitable for the environment where the cable will be deployed. Fiber Optic Outside Plant Cable, 24-core, ECSS (Electro Chrome Coated Steel) Armored, Loose-tube, Gel-filled, 9/125 μm , OS2, Singlemode, Black cable jacket Finish making your selections or clear them to view relevant specifications. MTP / MPO multi-fiber system is designed for the reliable and quick operations in data centers, where the obvious benefits are less space requirements and improved scalability, which providing significant space and cost savings.
