

# Mexican Fiber Optic Channel

## Overview

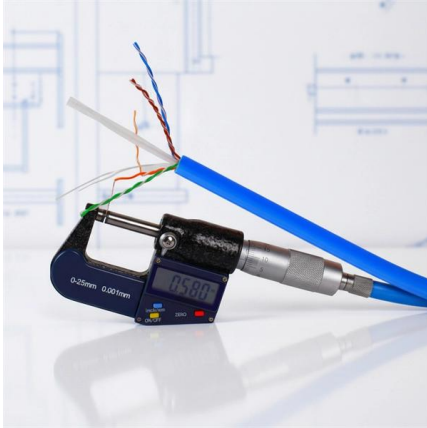

---

Megacable and Nokia execute the first long-distance optical transmission channel in Mexico and Latin America. 1 Tbps (Terabits per second), which represents a milestone for telecommunications in the region, said the companies in a. The first of its kind in 25 years, the long haul fiber network will connect Phoenix and Querétaro with cutting-edge, low latency fiber infrastructure, ready for service in Q4 2026 The first of its kind in 25 years, this long haul fiber network will connect Phoenix and Querétaro with cutting-edge. The market provides a detailed overview of the market and that can be segmented by fiber type and application. The Mexico Fiber Optics Market is projected to witness mixed growth rate patterns during 2025 to 2029. Mexico presents a compelling opportunity for expansion into the fiber optic cable network sector, driven by its rapidly digitizing economy, increasing demand for high-speed connectivity, and government initiatives aimed at expanding digital infrastructure.
