

# **Mexico Active Optical Device 400G**

## Overview

---

Supporting QSFP-DD and OSFP interfaces, our 400G AOCs provide a cost-effective alternative to transceivers for in-rack and row connections. Explore Amphenol's high-speed Active Optical Cables designed for data centers, HPC, telecom, and storage systems with support from 12G to 400G. NADDOD offers a comprehensive range of best-in-class 400G Ethernet breakout AOC (Active Optical Cable) solutions. The primary objective of entering the Mexico 400G optical transceiver market is to capitalize on the rapidly expanding demand for high-capacity optical networking solutions driven by digital transformation, increasing data consumption, and infrastructure upgrades across the region. , founded in 2014, operates as a professional one-stop FTTX products supplier, with its product portfolio mainly categorized into two types: Fiber Connection and Fiber Box.
