

Monaco Mobile Transmission Fiber Cable

Overview

is an ISP and Network Operator that owns and operates its own full-fibre and legacy copper-based infrastructure while selling broadband internet (up to 10 Gbps via fiber), mobile, fixed telephony, IPTV, and cloud services directly to residential and. Explore the physical backbone of the internet with our interactive map of undersea fiber optic cables, peering exchange points, and more. Finally, individuals and professionals who still use a fixed telephone line using the famous socket T must also migrate to the new Monaco Telecom Fiber services before the end of December 2024. Designed for businesses, Connectivity is the dedicated Fiber solution (FTTO) that allows you to fully harness your company's digital potential: What is dedicated fiber ?

Dedicated Fiber or FTTO (Fiber To The Office) is the most advanced technology for Internet access. 210 kilometres of fibre optic cables have been installed across the Principality, as Monaco continues with its digital transition, providing super-fast connectivity to its residents. Our insights help businesses to make data-backed strategic decisions with ongoing market dynamics.
