

Mongolian 12-core smart building optical cable

Overview

The 12-core GYTY53 is a double-sheathed, steel-armored fiber cable for outdoor and underground installations. It includes a central steel strength member, gel-filled loose tubes, water-blocking yarn/tape, corrugated steel armor, and dual HDPE jackets. It has highly appraised by it's customers with superior quality, perfect service and advanced technology (with 12 high speed producing lines, available to manufacture 216. The future-proof communications infrastructure that provides the highest capacity, speed, and broadband data transmission is fiber optic cable. Intermediate Cross-Connect, horizontal Cross-Connect or horizontal cabling transition points. 12 Core Fiber Optic Cable GYTY53 Outdoor Armored Double Jacket Waterproof Gel Filled loose tube direct burial is used for direct buried underground, it suit for long distance and LAN fiber communications, we supply both the single mode GYTY53 cable and multimode GYTY53 cables. 12 Core FTTH Single Mode Optical Fiber Cable - Round OD 6 mm + FRP + Yarn Our 12 Core FTTH Single Mode Optical Fiber Cables are designed to meet the high demands of modern telecommunications networks.
