

Mongolian Explosion-proof Lighting and Power Distribution Box

Overview

Introducing our Explosion-proof Lighting (Power/Repair) Distribution Box, designed for enhanced safety and efficiency in hazardous environments. This series of products have good explosion-proof function, suitable for IIA, IIB, IIC explosive gas environment and various flammable and explosive sites, mainly used in railway, power, metallurgy, petroleum, petrochemical, chemical, iron and steel, aviation, ships and various factory areas. Explosion-proof lights used in hazardous areas where combustible gases and dust exist, which can prevent arcs, sparks, and high temperatures that may occur inside the lamp from igniting combustible gases and dust in the surrounding environment, thus meeting explosion-proof requirements. This robust distribution box complies with IIB/IIC/tD standards, ensuring reliable performance in explosive atmospheres. (hereinafter referred to as KGV Electric), founded in 2011, is a high-tech enterprise focusing on the R&D and manufacturing of explosion-proof electrical appliances and industrial lighting.

Mongolian Explosion-proof Lighting and Power Distribution Box

Songbei Explosion-proof Anti-Corrosion Lighting Power Distribution

With its sturdy construction and advanced protection features, this distribution box is ideal for controlling and distributing electrical power in areas where explosive gases or hazardous substances may be
