

Multimode fiber optic cable marker

Overview

The ANSI/TIA-598-C color code applies to multimode fiber cables and single-mode fiber cables and provides a systematic way of identifying individual fibers within a cable. The Multilink cable markers utilize a simple and quick installation that allows the installer to simply wrap the marker around the selected cable without the need for special tools or adhesives. The UV stabilized body will not degrade in outside applications and a variety of colors allows easy. Mark fiber optic cables, gas pipelines, petroleum pipelines, electric lines, water lines, sewer lines, and other buried utility lines with this UV-stabilized marker.

StarTech Duplex Fiber Optic Multimode Patch Cable

NETWRKCBL,FIBER,3.28FT,OR The FIBSTSC1, 1-meter (3 3ft) Multimode 62 5/125 Duplex Fiber Patch Cable is terminated with one ST (male) connector and one SC (male) connector, to provide the
