

No electricity meter or wiring in the distribution box

Overview

Check your electricity meter for lights or flashing displays - this indicates there is an electricity supply coming into your property from the outside mains cable. There are lots of different reasons why there might be no electricity in your house - from power cuts to faulty wiring. Understand the difference between meter boxes and distribution boxes, their roles, safety functions, standards, and correct applications in electrical systems. Whether you're an electrician or a DIY enthusiast, this guide will help you understand the basics of home electrical distribution.
