

On-site pricing for secondary distribution box fabrication

Overview

For a basic plastic D-box, expect \$25-\$60 per unit, with installed costs typically \$150-\$400 depending on site access and labor rates. Homeowners typically spend several hundred to several thousand dollars for distribution box work in septic systems, depending on system size, material, and installation complexity. This guide outlines typical price ranges, how costs break down, and regional differences to help homeowners budget accurately. The distribution box price represents a crucial consideration in electrical infrastructure planning, encompassing various factors that influence cost efficiency and performance.
