Reasonable structure
Stable performance

Overview

Explore verified Server rack importers in Paraguay with customs shipment details, buyers list, and trade data reports for smarter import-export decisions. The initial design capacity includes 110 racks for IT services and 58 for network and telecommunications equipment. How does 6Wresearch market report help businesses in making strategic decisions?

Do you also provide customisation in the market study?

Paraguay data center market is projected to reach USD 88.78% during 2022-2027. Paraguay is a growing economy in Latin America, with international trade relations with major markets, a fast-growing public sector, and government initiatives for digitalization. Available in 1U to 5U rack densities, with support for single and multi-socket configurations for x86 processors from AMD and Intel, as well as ARM processors from Ampere, extensive DDR5. Paraguay's ICT ministry has recently launched a tender for the construction of a state-of-the-art data center. The data center, which will be built in the Chaco area, Nueva Asunción district, will require an investment of US\$18.
