

Parameters of Mobile Explosion-proof Distribution Box

Overview

The product structure mainly consists of cover, housing, explosion-proof latch, built-in circuit breaker or explosion-proof circuit breaker, and terminal blocks. The component cavity is flameproof, the wall thickness is up to 12mm, and the inlet cavity is increased in. ·Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc. Explosion-proof distribution boxes are mainly used in coal mines, fire stations, petroleum, petrochemical installations and textile and other flammable and explosive places. ● Besides the present designation for the full plastic explosion-proof mobile power branch connection socket box, it also can be designed and manufactured according to requirements. It is widely used in flammable and explosive gas environment such as oil exploitation, refining, chemical industry, offshore oil platform, oil tanker, etc.

Parameters of Mobile Explosion-proof Distribution Box

Explosion Proof Illumination Distribution Boxes (With

Flameproof and explosion proof, these power overhaul distribution boxes are suitable for use in hazardous areas. Specs: Ex mark: Ex de IIC T4 Gb DIP A21 TA,T4
