

Parameters of Moisture-proof Distribution Box

Overview

Waterproof and dustproof: IP66 protection level, suitable for indoor and outdoor installation, especially suitable for outdoor environments. Modular design: The number of modules ranges from 4 to 36 to meet various circuit configuration needs. Download new and previously released documents including product document, solutions, cases, corporate report. Reach out to us to receive more information, technical support, assistance with complaints and more. This guide examines the critical structural components that define a high-quality enclosure, focusing on durability and ingress protection for professional installations. 1 Outer Box (Base & Cap): Suitable polymer with UV protection & Flame retardant characteristics (HB/V0 as per UL 94 - Tests for Flammability of Plastic materials).

Parameters of Moisture-proof Distribution Box

Waterproof Electrical Distribution Box, SHPN Series

Protection level: IP66, ensuring that the distribution box is effectively waterproof and dustproof in harsh outdoor environments. Impact protection level: IK09, providing
