

Peak Optical Cable

Overview

PeakOptical's product portfolio includes high-quality optical transceivers, xWDM multiplex solutions, storage connectivity solutions, ethernet media converters and fiber optical cables. Peak Fiber Solutions high-performance products are certified and approved by some of the largest global telecommunications carriers, as well as many other leading companies in the US. CITCABLE radiation resistant multi-mode fibres have 50µm core, Besides, CITCABLE also can make customized tight-buffered radiation resistant multi-mode fibre CITCABLE PEEK coating process to stabilize PEEK during extreme temperature fluctuations. Peak Fibre is a full fibre solution provider, owned and run by a team with decades of experience building and deploying fibre solutions in the. Dig-ups dominate! Cablers have very little influence on the majority of causes of cable field failures.

Peak Optical Cable

Fiber Optic Cables , OM1 OM2 OM3 OM4 OS2 , Singlemode Multimode

Shop Fiber Optic Cables OS2, OM1, OM2, OM3 and OM4 in a variety of colors and lengths. High-quality fiber cables for professional applications.
