

# **Power outage sequence for the three-level distribution box**

## Power outage sequence for the three-level distribution box

---

### Three-Tier Power Distribution System in a Newly Constructed

Learn about the three-tier power distribution system (main secondary tertiary distribution boards) in a new residential area including their roles connections and safety measures for 0.4kV power supply.

### Emergency Power Distribution Equipment

Emergency power must be supplied to the life safety branch within ten seconds of a normal source power outage. Typically, these loads are served by automatic-transfer/bypass-isolation switches.
