

Price of 700-800 meters of optical cable

Overview

Factors like armor, jacket rating (LSZH), and raw material indices influence the final ex-factory price. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. Here's a general pricing reference: These are indicative prices based on standard configurations. Let's be real: If you are wondering "how much does fiber optic cable cost" for your next project, you've probably seen quotes that make zero sense. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets.
