

Relay Protection Fiber Optic Fast Connector Intelligent OEM

7800mAh LITHIUM BATTERY

Dual charging channel

Even if a fault occurs, another channel can be used for charging

Press to popup the battery

Charging channel ①
The battery can be removed and charged separately

Charging channel ②

The diagram shows a black and orange fiber optic fast connector device. A hand is shown pressing a button on the side of the device, which causes the battery to pop up. The battery is shown separately to the left of the device. Two charging channels are indicated: Charging channel ①, which is the battery itself, and Charging channel ②, which is a separate port on the device.
