What is ONU and Why Does It Matter for Your Internet

What is Optical Network Unit (ONU)? An ONU converts fiber optic signals for your devices, ensuring fast, stable internet at home or business.

ONU (Optical network units) , G-PON (Gigabit passive optical network)

A gigabit passive optical network (G-PON) comprises optical line terminals (OLTs) and optical network units (ONUs), and Murata's lineup of products for use in ONUs is introduced here.
