

# **Simple Fabrication of Various Bends in Cable Trays**

## Overview

---

This guide explains how to make 90° bends, vertical bends, tees, and offsets in wire mesh cable trays safely and professionally. more description of how to fabricate a 200 mm cable tray bend in English: How to Fabricate a 200 mm Cable Tray Bend - Description Fabricating a cable tray bend is a process. Wire mesh cable trays are widely used because of their flexibility and easy on-site modification. Construction of a flat 90° bend (A) The amount of tray lip to be removed is equal to 2, 3/4 the width of the tray, half of this measurement will be removed on either side of the centre line.
