

# **Singapore Adjustable Attenuator Specifications**

## Overview

---

**ATTENUATION RANGE AND STEP SIZE:** The RF programmable attenuator has a attenuation range of 0 to 31dB and a step size of 1dB 2. Designed with ergonomics of the human hand in mind, AT-4000 Series Attenuators' control knob comes in a size that provides comfortable grip and excellent control with every turn. FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission. Attenuators The ATN00-0040PSM is a surface mount GaAs MMIC 0dB attenuator in a DFN package. If you're looking for high-quality Audio Passive Attenuators, Wide Bandwidth Attenuators, Fixed RF Attenuators, DC3G RF Coaxial Attenuators, Adjustable Fiber Optic Attenuators, and other related products, this guide is tailored for you. Equipped with an FC connector (threaded coupling) and Ultra Physical Contact (UPC) polish, this VOA offers high stability.

## Singapore Adjustable Attenuator Specifications

---

### FC/UPC Variable Optical Attenuator , Fiber Optics SG

The FC/UPC Variable Optical Attenuator is a manually adjustable passive device designed to finely control the power level of an optical signal in single-mode fiber networks.
